Class I (USD) Share Class - SIG|Lyrical Fund, a sub-fund of Strategic Investment Funds UCITS Plc.
(ISIN IE00BKZGYB13) The Fund is managed by Bridge Fund Management Limited (the "Manager")

Objectives and Investment Policy

The Fund's objective is to achieve long-term capital growth while reducing the risk of capital loss.

The Fund will invest principally in US equities, which it aims to acquire at a market value substantially below their intrinsic value.

The portfolio shall typically be composed of 30 to 40 different equities, which are listed in the US although the investments shall not be subject to any geographical limitation. The Investment Manager will invest in medium and large capitalisation companies.

The Fund is actively managed in reference to a benchmark, the S&P 500 Index (the "Index"). As the Fund is actively managed with a concentrated portfolio selected from the top largest 1,000 U.S. stocks by market capitalization, the Fund is not constrained by the constituents or weightings of the Index and may deviate significantly from the Index.

The Investment Manager believes that a value-based approach is best suited to achieving the Fund's investment objective and is consistent with the investment experience of the Investment Manager. To identify situations with attractive investment characteristics, the Investment Manager maintains a proprietary stock selection model.

The stock selection model is based on historical earnings, consensus earnings estimates, and consensus estimates of short, medium and long-term earnings growth to calculate an intrinsic value estimate for every planned security investment. The Investment Manager continually monitors changes in the securities of the portfolio of the Fund, and regularly re-evaluates them. The Investment Manager shall seek to sell assets of the Fund either when it approaches its intrinsic value or when the Investment Manager determines a better use of capital in other investments.

The Fund does not invest in financial derivative instruments.

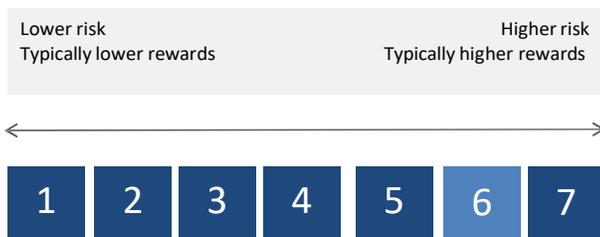

The units in the Fund are accumulating units. Income from the Fund's investments will be included in the value of the units rather than being paid out as a dividend.

Investors may subscribe or redeem on a daily basis. Please refer to the definition of Dealing Day in the supplement.

In light of the investment policies of the Fund, an investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. It is suitable for those who understand the degree of risk involved, and can tolerate a medium to high level of volatility that is generally associated with an equity fund. An investment in the Fund should be viewed as medium to long-term.
